Mission Statement:

Beginnings Preschool strives to provide a caring and Christian based educational environment to promote the growth of each child.

Philosophy:

Beginnings Preschool believes that learning in the first five years of life is vital to future successes in education and society. Students will be taught a Christ-centered, Florida Department of Education approved curriculum using center areas in the classroom and outdoor play. The qualified staff aims to promote the five child development theories of growth through teacher directed lessons and facilitated independent play. The five areas of development are social & emotional, physical health, motor development, language & communication, and cognitive development. Beginnings Preschool will celebrate and focus on the true meaning of all Christian holidays. Teachers will adapt fundamental Christian beliefs into everyday lessons. We encourage parent involvement and ask parents to pray for the school each day. We're helping children build their lives on the reality of Jesus Christ.

Discipline: Beginnings Preschool uses positive reinforcement and conflict resolution to promote appropriate behavior. Children will never be denied outdoor/active play as a result of misbehavior. Children will be encouraged to work out disagreements. In the event that the teacher's attention and/or intervention is needed, the child/children will be directed to another activity or sent to the "Safe Place" established inside each classroom or on the playground. The "Safe Place" may be a reading area, chair, wall space, bench, or other designated quiet area either inside the classroom or on the playground. Upon continual disruptive behavior, the child will be sent to the director's office to "cool down". In extreme circumstances, the director will notify the parent to remove the child from school for the rest of the day. Sometimes our program does not meet an individual's needs and the preschool reserves the right to determine if our program is appropriate for the child.
